DETAILED ACTION

Response to Arguments

Applicant's arguments filed October 23, 2006 have been fully considered but they are not persuasive.

The Applicant argues that Snyders fails to disclose a cuff made of Nitinol. However, the band as described by Snyders (paragraph 0042) is **capable** as acting as a cuff as claimed. The outer portion of the cuff comprises Nitinol, a medically acceptable metal (paragraph 0056). The Applicant's argument refers to a different embodiment of Snyders (figs 1 and 2) than is referred to in the prior office action (figs. 8 and 9). The Applicant also argues that there is no motivation for modifying for Snyders, however the prior rejection was an anticipatory rejection, not an obviousness rejection, therefore the argument is misplaced.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 remain rejected under 35 U.S.C. 102(b) as being anticipated by Snyders (2002/0123802 A1). Snyders discloses a titanium alloy woven mesh cuff for a mechanical heart valve (paragraph 56). It fits around the perimeter of the heart valve and inherently has an outer annular portion with a larger diameter than the inner annular

rim (e.g. Fig 8). The material is the same as claimed and therefore would promote tissue ingrowth, endothelialisation, and minimize leaks and infection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
